The Outfit

Activity by Peter Heaney

(Read pp 18-30)

Megan and her mum need outfits for the confirmation day and her dad has just won a voucher for 250 euro from a very fashionable shop in Limerick. Do you think that you could get an outfit for yourself and your mum for a budget of 400 euro? You could use the Internet or catalogues. You could check the prices of clothes in the shops near you with your mum / older sisters.

You could choose a theme to make sure the outfits and colours compliment each other. Draw the outfits you have chosen on Megan and her mum, and use the boxes to describe the items and give the prices.
