

WILD DUBLIN

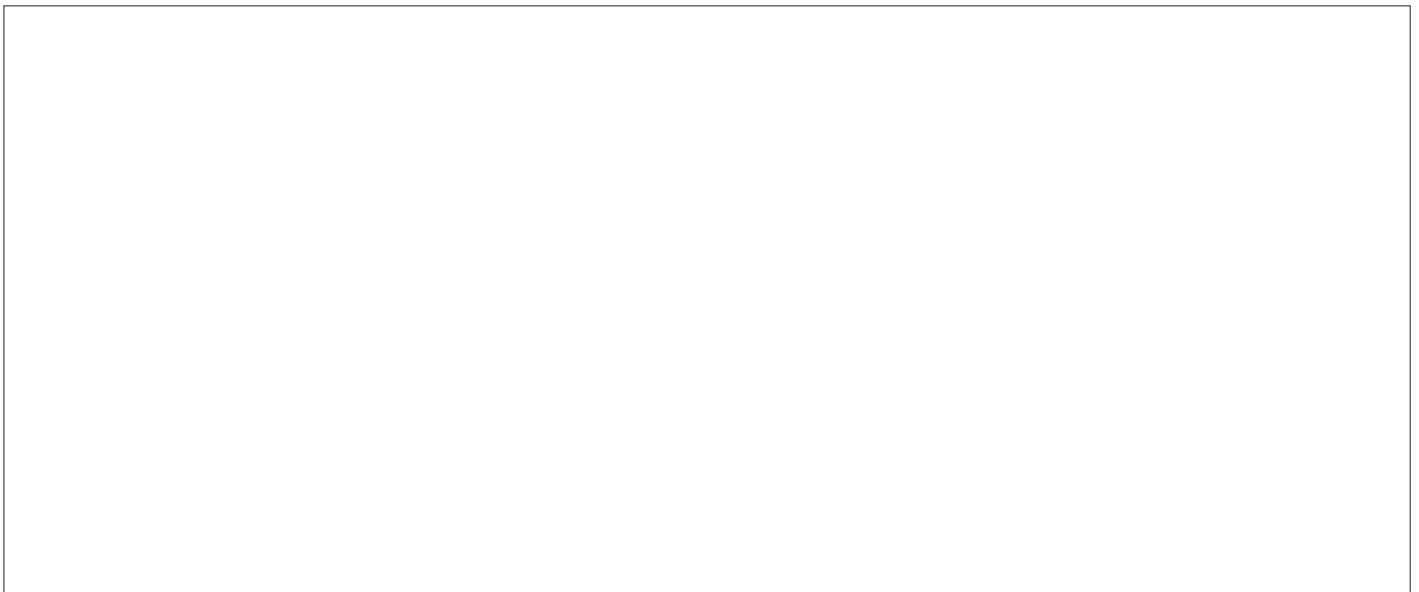

Exploring Nature in the City

Bird's eye view

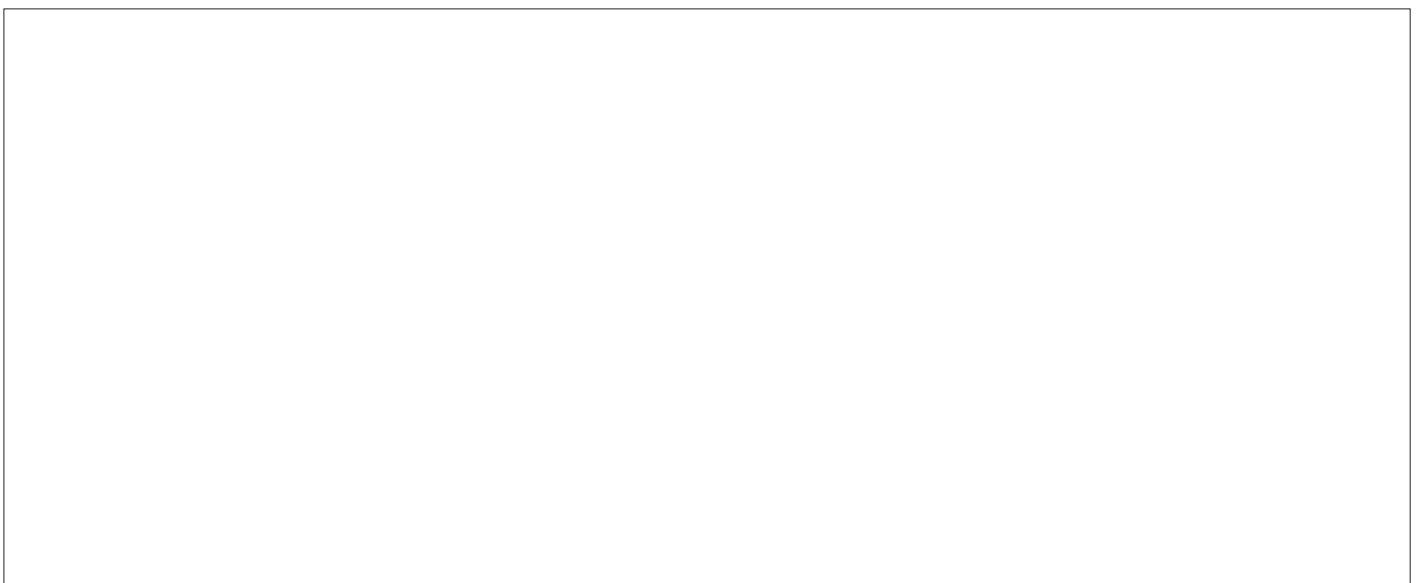

Pretend that you are a bird flying over your area. What feature do you think will attract the bird's attention?

(You will need to examine a map and aerial pictures of your area very carefully for this activity).

Use the box below to draw what you think might attract the bird's attention.

A large, empty rectangular box with a thin black border, intended for a student to draw a feature that might attract a bird's attention.

Write a short description of what the feature is and why you think the bird will be interested in it.

A large, empty rectangular box with a thin black border, intended for a student to write a short description of the feature they drew and explain why a bird would be interested in it.
