

# What Do I Know About Farming?

(You will need to do this activity before you start reading the book.)

Work in small groups to make a list of ten things that you know about farming and farm animals. Then make a list of ten questions that you have about farming.

When you have finished the book, check your lists. How accurate were you? Did you get your questions answered?

Should we be interested in farming? Find four reasons why it is important to know what happens on a farm.

Create a poster to warn about using pesticides on farms in Ireland?

What I Know	What I Want To Know

What is 'Organic Farming'?

Is organic food better for us?

Is it fair to have to pay more for organic food?
