

ACTIVITY SHEET I

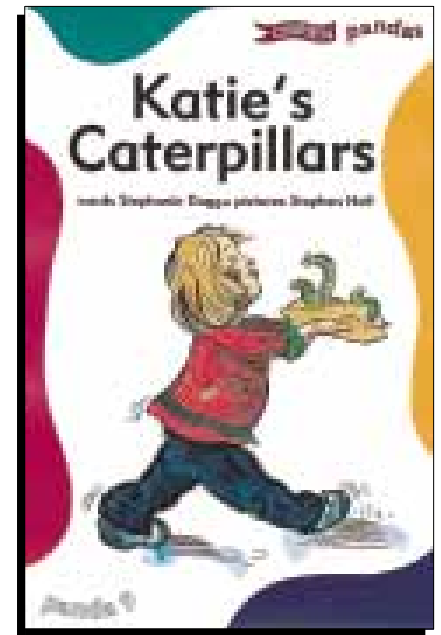

BENDY CATERPILLARS

Materials:

- five cardboard circles
- paper tacks
- one pipe cleaner
- sellotape

Method:

1. Place an upturned cup on a sheet of cardboard and draw five circles.
2. Cut out each circle and colour. Remember, one circle will form the head so draw a face on this one – eyes and a mouth.
3. Next, get an adult to help you fasten the circles together in

an overlapping line with the paper tacks. Place the head at the front!

4. Bend the pipe cleaner in two for the caterpillar's antennae. Attach to the head with sellotape. There we are – one bendy caterpillar!
