

ACTIVITY SHEET 8

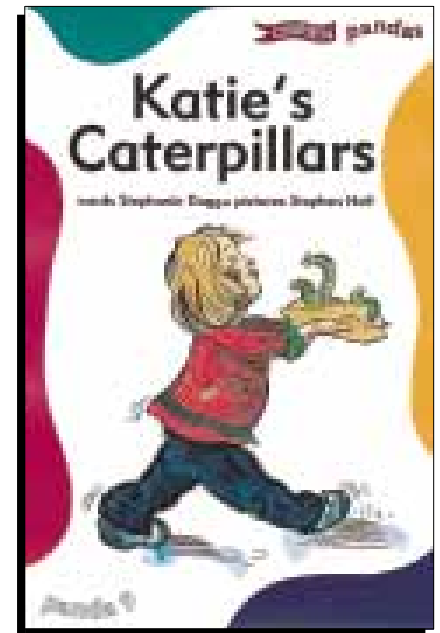

TOILET ROLL BUTTERFLY

Materials

- one toilet roll tube
- one pipe cleaner
- scissors
- cardboard
- glue
- paints or markers
- sellotape
- lump of Blu-tak or plasticene to hold tube upright

Method

1. Holding toilet roll tube upright by sticking it in plasticene or similar, paint or colour the tube a nice bright colour.
2. While it is drying, cut out some butterfly wings from the cardboard. Paint or colour these on both sides.
3. When they are dry, stick the wings to the back of the upright tube.

4. On the front, draw a happy face.
5. Now bend the pipe cleaner and sellotape it onto the top, above the face, as the butterfly's antennae. Make sure your butterfly doesn't fly away!
